## CELEBRATE THE COLLABORATIVE EXPERIENCE

The Miles Collection embraces the modern approach to collaboration with the introduction of Media Tables. Available in seated and standing height, Media Tables offer an all-in-one solution with built-in casegood storage, securable AV compartments, and integrated power with concealed wire management.

## SMALL TABLES, BIG IMPACT

Add subtle hints of color and vision-defining finishing touches with Miles Occasional Tables.

Sized to fit seamlessly throughout any space, they share the collection's cohesive design language, offer a wide range of shapes, and feature eye-catching finishes. Available in both coffee and side table heights.

## ADAPTABLE & COMFORTABLE

The Miles Collection offers Training Tables designed for flexible learning environments across corporate and educational spaces.

Optional soft touch urethane edges make for comfortable work surfaces that support even the longest sessions. Available in both flip-top and fixed base configurations.

## SHAPED FOR SOLUTIONS

Move from a lecture hall to a collaboration space in moments. Adaptable table shapes rearrange into rows, pods, or any configuration in between—then store neatly away when not in use.

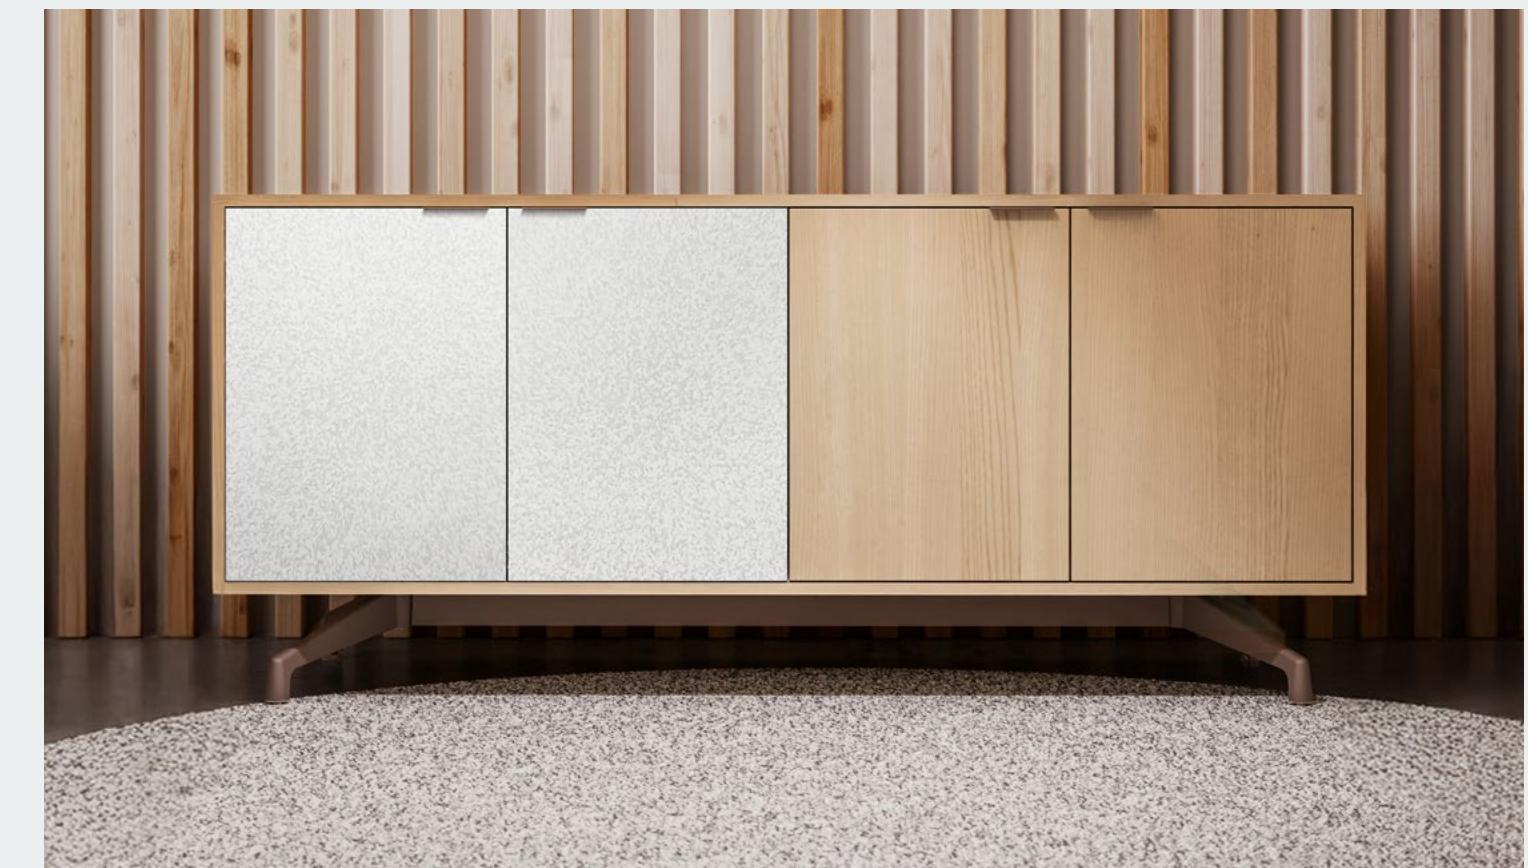

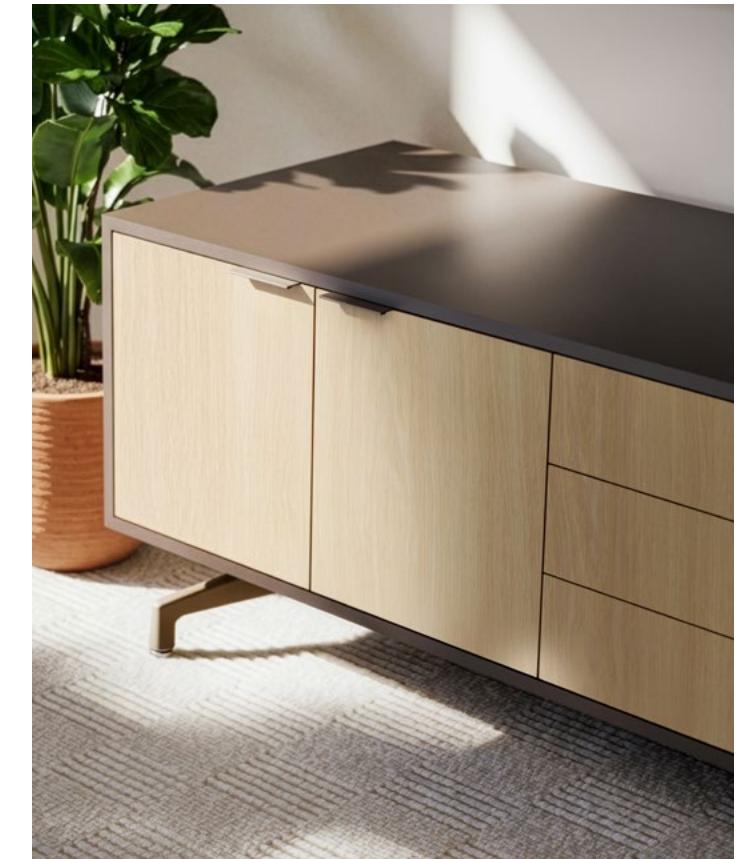

## DESIGN MINDED, SUSTAINABILITY FOCUSED

Designed to elevate any environment, the Miles Casegoods pairs beautifully with Miles Tables—yet their refined aesthetic lets each piece stand confidently on its own.

Partnering with Design Declassified, select an optional recycled HDPE finish that gives new life to reclaimed plastic, turning the Casegood doors into a striking study in texture and materiality.

Available in buffet and credenza heights with a range of door, drawer, and cubby configurations.
