# Stretch-Out™

Height Adjustable Workstation

## Quality

Industry leading stability and strength

Legs include built-in dual motors

Adjusts at over two inches per second

Maximum lifting capacity of 360 lbs. (not including top)

## Safety

Anti-crush safety feature

Push and hold controller

Tops are undersized to eliminate pinch points

## Ergonomics

Standard 4-position programmable control with digital display

Height range of 25" to 51"

H-frame eliminates need for cross brace, maximizing knee clearance

## Environmental

Sleep mode consumes less than 0.06 watts

Ultra-quiet motors operate at 39 decibels - the same as a quiet library

Rubber grommets between the top and base reduce vibration and noise

## Sizes • Finishes

Base is finished in Metallic Silver powdercoat

Top laminate and edge combinations are virtually unlimited

Width: 24" - 30"  
Length: 48" - 78"

(Actual top dimensions are undersized to eliminate pinch points)
