

PENNY

Work happens everywhere. And Penny is the perfect (everywhere) table for small-scale spaces and in-between places where you need to touchdown, connect, or take a quick caffeine break.

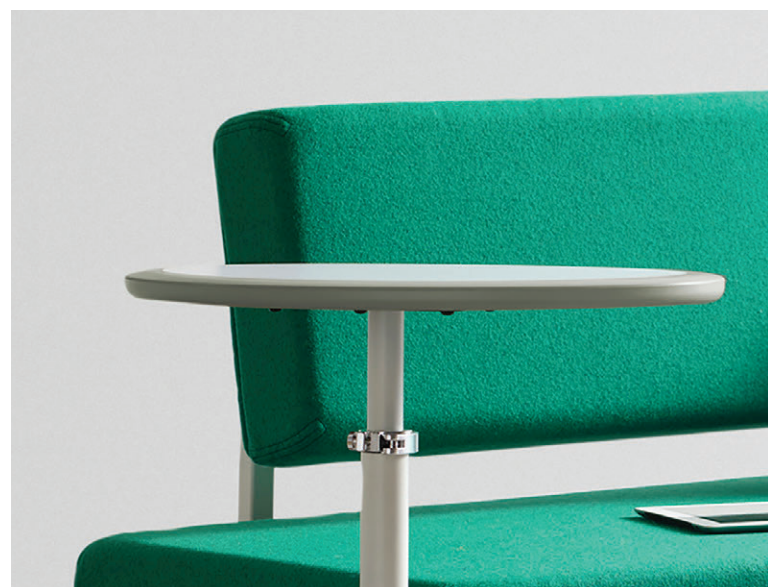

OPTIONS

Static or mobile, height adjustable or just right, Penny gives you options. Choose from two top shapes - oval or rectangular, wrapped in a durable urethane edge and ready to take on whatever you pile on (within reason; be nice).

GOING UP

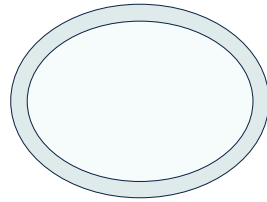

In an era of hackable spaces, Penny lets you personalize your posture. Want to lounge? It can do that. Feel like sitting up straight? No problem, Penny moves with a simple user-adjustable clamp that lets you adjust to the task at hand.
