NEMO

NEMO

Gathering together might be human nature, but gathering around the water cooler is so last-century. Nemo was designed to give people an updated and hip destination. Flexible and tech-friendly, Nemo effortlessly transforms informal spaces into places where all kinds of meeting, collaborating, and downtime can happen.

NEMO BAR

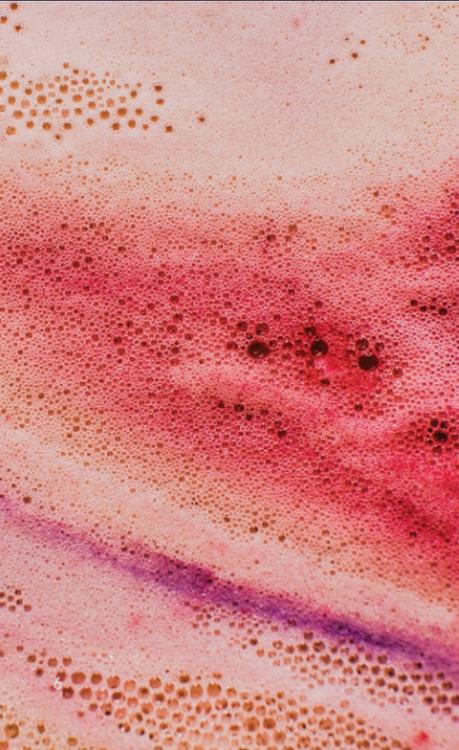

GATHER AROUND POWER UP

Easy-going, welcoming, spontaneous—no wonder the Nemo Bar is so magnetic. Sitting or standing, solo work or teamwork, staying for a few minutes or a few hours, the Nemo Bar happily accommodates everyone's needs (even the charging-needs of your devices).

NEMO TRELLIS

AN INVITING HIDEAWAY

Remember that tree fort, club house, or hideaway you spent hours in as a kid? We might be all grown up, but that doesn't mean we don't still gravitate towards a sense of enclosure. The Nemo Trellis draws people in without shutting anyone out.
