Training Table

Who said you can't have style in training rooms? With Rapport Training Tables you can do just that. The low profile leg will allow for maximum user space and the available Ultra-Flip™ version makes for easy nesting and storage. Rectangles are available in widths of 18", 24" & 30" and lengths from 42"-84". Trapezoids, Crescents, Quarter-Rounds and Half-Rounds are available to complete any desired configuration.

Rapport was designed by Jim Contois.
