**CLARA™ TABLES**  
CUT SHEET

OVERVIEW

Clara is about bringing elements together – ideas, people, pets (well, a fish maybe). She’s about transforming a ho-hum, straight-rowed, face forward kind of space into a dynamic, organic environment where people can do the best work they’re together to do. Watch classrooms evolve into playgrounds, offices become innovation hubs, and lonely, in-between spaces be infused with new energy.

Key Features

- Modernist principles of simple, intuitive design, scaled for appropriate human depths, reach zones, group work, and heights (for all ages)
- Designer-focused, with vast laminate and edge color combinations, along with unique, modern and flexible shapes that accommodate countless collaborative configurations
- Legs snap onto pre-installed brackets for easy assembly; no tools required
- Available in 4 fixed-heights and 2 pin-height adjustable ranges
- Meets or exceeds ANSI/BIFMA standards

Edge Options

Choose knife-shaped profile urethane edge that coordinates with the leg contours, or ABS edgeband for a more conventional look.

Urethane Edge

Edgeband

Glides & Casters

Glides are standard; locking casters optionally available. Casters add 1.75" to overall table height.

Table Height Options

Available in 4 fixed heights and 2 pin-set height-adjustable ranges.

Fixed Height  
(28" is standard)

Pin-Set Height Adjustable  
(1" increments)

Ganging Brackets

All Clara tables (except round) are pre-drilled for optional Table Connectors; choose from flexible (easily removable) or flat (permanent).
