

A-SERIES PURTECH URETHANE EDGE MODELS:

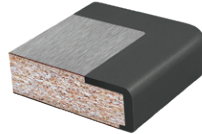

Urethane profile on all sides of the table top; ideal when people are seated all around the table, such as for conference, meeting & hospitality spaces. A-Series urethane edge models are available in all 75 standard colors, which include matches to all 13 izzy+ colors.

Y-SERIES PURTECH URETHANE EDGE MODELS:

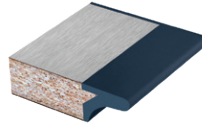

Urethane edge profile is on the user side of the table, with thin, flat urethane continuing seamlessly on the remaining non-user sides. Primarily used for training tables, Y-Series edge models allow for flush connections between tops when connected or placed side-by-side, and colors are not restricted as they are with F-Series models. Y-Series urethane edge models are available in all 75 standard colors, which include matches to all 13 izzy+ colors.

Ultra-Flex™ Profile

F-SERIES PURTECH EDGE MODELS:

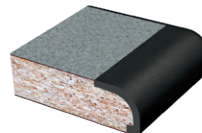

Urethane edge profile is on the user side only. Non-user sides consist of EB edgeband. Primarily for training tables and workspaces, this allows for flush connections between tops when connected or placed side-by-side, and the flexible mold process accommodates non-standard top lengths and some custom curved shapes. Standard colors for F-Series PurTech urethane edge models are generally restricted to those that are also available in EB edgeband (denoted by **F**), however you may specify a non-matching edgeband color.
